Dear Ms. Prensky:

Thank you for your recent correspondence regarding this worthwhile project.

While we are unable to provide any financial support to you at this time, we would be pleased to lend our name to your project as well as any other materials or educational support that would be helpful.

I wish you good luck as you embark on this project which promises to educate and inspire others about the Kulturbund's spirit and the power of music and arts from which they drew.

Please let me know if there is anything we can do to help you as you proceed toward a finished product.

Sincerely,
